PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IP1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Adadym Ammunition Depot Nazarovo is located 5 kilometers (km) west of Adadym, 6 km west-southwest of Nazarovo and 34 km south-southwest of Achinsk (Figure 1). The installation is served by a 2 km rail spur from the town of Adadym on the Achinsk-Uzhur rail line and by a 2 km improved, all-weather secondary road from Adadym.

The installation (Figures 2 and 3) covers approximately 825 acres and contains a total of 190 buildings including 69 explosives storage buildings, 53 support/storage buildings, 33 general storage buildings, 16 administrative/barracks buildings, 12 support buildings,

and seven transshipment sheds. The 69 explosives storage buildings and miscellaneous support buildings are enclosed by a double fence and the general storage area by a single fence.

This installation is covered by KEY-HOLE missions between [REDACTED]

The latest available photography confirms the presence of winter activity within the support and secured storage areas. No apparent changes have taken place within the installation since its initial coverage in [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

The eastern half of the explosives storage area is served by a closed-loop rail spur. A single spur serves the general storage area. Three transshipment buildings are located in the general storage area and four transshipment buildings are located within the explosives storage area.

Road Service

An improved, all-weather secondary road serves the installation from Adadym. Numerous secondary roads serve the support and secured storage areas.

Administrative and Troop Housing Area

Area D (Figure 3) contains 16 administrative/barracks buildings and 53 support/storage buildings.

General Storage Area

Area E, served by a single rail spur, contains 28 general storage buildings and three transshipment buildings.

Ammunition Storage Area

Area F contains sixty-seven 195-by- [REDACTED] explosives storage buildings, one 95-foot explosives storage building, one [REDACTED] foot explosives storage building, one 500-by- [REDACTED] storage building (probable warehouse), two 110-by-70-foot storage buildings (support for warehouse), two 110-by- [REDACTED] storage buildings (support for warehouse), two 210-by- [REDACTED] transshipment buildings, one 185-by- [REDACTED] transshipment building, one [REDACTED] transshipment building, and 12 support buildings with undetermined dimensions.
